

Quiz 04 - Unix shell scripts

1) Why would one use a shell script?

2) If one had the following, poorly commented, shell script (`middle.sh`), fill in the blanks to execute the script correctly on the file `input.txt` and put 10 lines into `output.txt`:

```
# Select lines from the middle of a file.  
cat $1 | head -n 25 | tail -n $3 > $2
```

\$bash middle.sh _____

Quiz 04 - Unix shell scripts

1) Why would one use a shell script?

2) If one had the following, poorly commented, shell script (`middle.sh`), fill in the blanks to execute the script correctly on the file `input.txt` and put 10 lines into `output.txt`:
